The Spanish Society for Rock Mechanics (Sociedad Española de Mecánica de Rocas), and the School of Mines of the University of Vigo are proud to announce the organization of the ISRM International Symposium EUROCK 2014 - Rock Engineering and Rock Mechanics: Structures on and in rock masses-, which is to be held in Vigo, Spain, May 27-29, 2014.

The main objectives of the Symposium are to:

- Provide a forum for engineers, researchers and students,
- Integrate industry professionals and scientific research communities,
- Create opportunities to update and improve knowledge,
- Present the most recent contributions in the area of rock mechanics and Geotechnics.

The Congress/Symposium will cover the entire scope of Rock Mechanics and Rock Engineering, with emphasis on STRUCTURES ON AND IN ROCK MASSES. The main topics are:

- Rock properties and testing methods
- Rock mass characterization
- Rock mechanics for infrastructures
- Mining rock mechanics
- Design methods and analysis
- Monitoring and back analysis
- Excavation and support
- Rock engineering in quarrying
- Preservation of natural stone and rock weathering
- Case histories
- Petroleum engineering and hydrofracking
- CO2 storage
- Applicability of EUROCODE-7 in rock engineering

EUROCK 2014 will be hosted in the “Centro Social Novacaixagalicia”. An exhibition area is planned to be held parallel to the Symposium. It will offer exhibitors the opportunity to promote their products, display folders, magazines, books, etc. The exhibition will be open for 3 days, i.e. 27-29 May 2014.
